New Pongance Island

Dear Mr. Anderson

In 2016 during an online course at the TypeType School of fonts and typography we've created the Wes typeface especially for you. The author of the typeface is [Yelena Madyankina](#) – she's a great fan of your art and would love to create fonts for your movies, film credits and posters.

While creating Wes we've kept Woody Allen's legacy in mind – he only uses Windsor Light Condensed (white text on black background) typeface for his films. Wes typeface has turned out to be very emotional and at the same time traditional, as if created by an introvert with a deep and rich inner world.

We would be very glad if you took notice of our project. Wes typeface is free of charge and is distributed under the conditions of [SIL OFL 1.1. \(SIL Open Font License\)](#). Anyone is welcome to download and use this typeface for his or her needs.

With best regards, [TypeType School team](#)
