

**Freeware and Purchasable Typeface Specimens of an Astounding Variety
© 2002 by Astigmatic One Eye Typographic Institute**

The typefaces included within this package were created by The Astigmatic One Eye Typographic Institute, (aka Brian J. Bonislawsky).

I would like to personally thank you for downloading and using this typeface for your Personal & Commercial designs and work. Please feel free to use this typeface without need to acquire any license for design use.

The only requirement is that if you wish to distribute these typefaces digitally on any CD Publication that you acquire documented consent from Brian J. Bonislawsky of The Astigmatic One Eye Typographic Institute.

All Astigmatic One Eye Fonts are available in Truetype and Postscript Type 1 with Bitmaps formats for the Mac and PC compatibles. When installing these typefaces, please only install the typefaces within the Truetype or PS Type 1 folders, but NOT BOTH. Installing both will default out the typeface to a generic system font.

If you use these Freeware fonts don't forget to check out what's available for purchase, after all, without your support Astigmatic will be unable to offer you so many free fonts. Also, visit & see the unique incentives that come with purchasing Astigmatic typefaces, like the Illuminati Archives, a growing collection of typefaces, lifetime access Free with any order.

Since its founding, Astigmatic has worked with dozens of designers, helping to forge their own foundries as well as helping to increase the quality of type, both created by Astigmatic and these designers. Astigmatic strives to continually increase its range of typographic scope; taking on expeditions to revive old typestyles, unearth long lost specimens, forge new styles yet unseen, & begin to develop more comprehensive language typestyles, including that of the WGL4 set which includes Greek and Cyrillic extensions.

Visit A.O.E.T.I. at: <http://www.astigmatic.com/> or send e-mail to: astigma@astigmatic.com

You're welcome to pass the Freeware version of this font along for others to review, as long as this document is also included in the transfer. Many thanks for your consideration.

Astigmatic One Eye depends on your suggestions as well as your support. Thank you for your interest in and use of Astigmatic One Eye Fonts. If you use these fonts commercially, I'd love to hear from you as to where they can be seen to fulfill my personal curiosity. Thank you.
